TableWorkspaces::setBigTableCollisionVolume

```
graph LR; A["sm_fetch_two_table<br/>_whiskey_pour::cl_move<br/>_group_interface::CpConstraint<br/>TableWorkspaces::setBigTableCollisionVolume"] --> B["sm_fetch_two_table<br/>_whiskey_pour::cl_move<br/>_group_interface::CpConstraint<br/>TableWorkspaces::update"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box has a light gray background and contains four lines of text. The right box has a white background and contains four lines of text. The text in both boxes is identical except for the last line, which is 'setBigTableCollisionVolume' on the left and 'update' on the right.
