The diagram illustrates a mapping or inheritance relationship. Two source functions, one from `cl_move_group_interface::CbMoveEndEffectorTrajectory::onOrthogonalAllocation` and another from `cl_keyboard::CbDefaultKeyboardBehavior::postKeyEvent`, are shown in white boxes on the left. Blue arrows point from each of these boxes to a single target function, `smacc::ISmaccClientBehavior::postEvent`, which is shown in a gray box on the right.
