

cl_move_base_z::forward
_local_planner::ForwardLocal
Planner::initialize

```
graph LR; A["cl_move_base_z::forward  
_local_planner::ForwardLocal  
Planner::initialize"] --> B["cl_move_base_z::forward  
_local_planner::ForwardLocal  
Planner::initialize"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box has a gray fill and a black border, while the right box is white with a black border. Both boxes contain the same text, which is a C++ function call: `cl_move_base_z::forward` on the first line, `_local_planner::ForwardLocal` on the second line, and `Planner::initialize` on the third line.

cl_move_base_z::forward
_local_planner::ForwardLocal
Planner::initialize
