The diagram illustrates a mapping from two source functions to a single target function. Two white rectangular boxes on the left contain the source function names: 'cl_move_base_z::CbUndoPath Backwards2::onEntry' (top) and 'cl_move_base_z::CbUndoPath Backwards2::update' (bottom). Two blue arrows originate from the right side of these boxes and point towards a single gray rectangular box on the right. This gray box contains the target function name: 'cl_move_base_z::Pose ::toPoseMsg'.
