

smacc::Transition::  
reactions::react\_without  
\_action

```
graph LR; A["smacc::Transition::  
reactions::react_without  
_action"] --> B["smacc::specificNamedOnExit"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box has a light gray background and a black border, containing the text 'smacc::Transition::', 'reactions::react\_without', and '\_action' on three lines. The right box has a white background and a black border, containing the text 'smacc::specificNamedOnExit' on a single line.

smacc::specificNamedOnExit
