

smacc::state\_reactors  
::EgRandomGenerator::  
onEntry

```
graph LR; A["smacc::state_reactors  
::EgRandomGenerator::  
onEntry"] --> B["smacc::state_reactors  
::EgRandomGenerator::  
postRandomEvents"]
```

A diagram showing a call from the `onEntry` method to the `postRandomEvents` method. The `onEntry` box is shaded gray, and the `postRandomEvents` box is white. A blue arrow points from the right side of the `onEntry` box to the left side of the `postRandomEvents` box.
