

```
cl_move_base_z::backward  
_local_planner::BackwardLocalPlanner  
::initialize
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. Both boxes contain the same C++ code snippet: `cl_move_base_z::backward`, `_local_planner::BackwardLocalPlanner`, and `::initialize`. The left box has a white background and a black border, while the right box has a gray background and a black border.

```
cl_move_base_z::backward  
_local_planner::BackwardLocalPlanner  
::initialize
```
