

The diagram illustrates the structure of the `smacc_diagnostics` package. It is represented as a light blue rectangle with a dashed border. Inside this rectangle, at the top, is the text `smacc_diagnostics`. Below this text is a solid black rectangular frame. Inside this frame, on the left side, is a smaller blue square labeled `src`. To the right of the `src` square, within the same frame, is the text `smacc_runtime_test`.
