The diagram illustrates a call sequence where two different callback functions, 'cl_move_base_z::CbNavigate Backwards::onEntry' and 'cl_move_base_z::CbNavigate Forward::onEntry', both invoke the 'cl_move_base_z::odom_tracker::OdomTracker::setStartPoint' method. The source boxes are white with black borders, while the destination box is solid gray. Blue arrows indicate the direction of the calls from left to right.
