The diagram illustrates a mapping from two source functions to a single target function. Two white rectangular boxes on the left represent the source functions: 'cl\_move\_base\_z::CbUndoPath Backwards2::onEntry' (top) and 'cl\_move\_base\_z::CbUndoPath Backwards2::update' (bottom). Two blue arrows originate from the right side of these boxes and point towards a single gray rectangular box on the right, which represents the target function: 'cl\_move\_base\_z::Pose ::toPoseMsg'.
