

cl\_move\_group\_interface  
::CbAttachObject::onEntry

```
graph LR; A[cl_move_group_interface::CbAttachObject::onEntry] --> B[cl_move_group_interface::GraspingComponent::getGraspingObject];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'cl\_move\_group\_interface::CbAttachObject::onEntry'. The right box is gray with a black border and contains the text 'cl\_move\_group\_interface::GraspingComponent::getGraspingObject'.
