The diagram illustrates an inheritance relationship. The base class, `boost::statechart::event< EvWaypoint203< TSource, TOrthogonal > >`, is represented by a white box with a black border. It has two empty rectangular compartments below its name. The derived class, `cl_move_base_z::EvWaypoint203< TSource, TOrthogonal >`, is represented by a gray box with a black border. It contains the member `+ waypointIndex` in its second compartment. A blue arrow with a hollow triangular head points from the derived class to the base class, indicating inheritance.
