

smacc::state_reactors
::SrEventCountdown::onEvent
Notified

```
graph LR; A["smacc::state_reactors  
::SrEventCountdown::onEvent  
Notified"] --> B["smacc::introspection  
::demangleSymbol"]; B --> B;
```

The diagram illustrates a function call. A grey rectangular box on the left contains the text 'smacc::state_reactors', '::SrEventCountdown::onEvent', and 'Notified' on three lines. A straight blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'smacc::introspection' and '::demangleSymbol' on two lines. A curved blue arrow originates from the top of the white box and points back to its top, representing a self-call or a return path.
