

smacc::introspection  
::processTransitions

```
graph LR; A[smacc::introspection::processTransitions] --> B[smacc::introspection::processTransition]; B --> C[smacc::introspection::processTransitionAux];
```

The diagram illustrates a sequence of three method calls in the smacc library. It consists of three rectangular boxes connected by blue arrows pointing from left to right. The first box, labeled 'smacc::introspection::processTransitions', is white with a black border. A blue arrow points from its right side to the second box, labeled 'smacc::introspection::processTransition', which is also white with a black border. Another blue arrow points from the right side of the second box to the third box, labeled 'smacc::introspection::processTransitionAux'. This third box is shaded gray with a black border.
