

The diagram illustrates the structure of the `smacc_client_library`. It is represented as a light blue rectangle with a dashed border. Inside this rectangle, at the top, is the text `smacc_client_library`. Below this, there is a smaller rectangle with a solid dark border. This inner rectangle contains a light blue square on the left with the text `src` inside it. To the right of this square, within the same inner rectangle, is the text `move_group_interface_client`.
